Supplemental Type Certificate

Number ST02694AT

This certificate issued to Aerospace Technologies Group, Inc.
2009 Corporate Drive
Boynton Beach, FL 33426

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 21.29 of the Federal Aviation Regulations.

Original Product - Type Certificate Number: A46EU
Make: Dassault Aviation
Model: Falcon 50

Description of Type Design Change: Manufacture of electrically powered window shades for the passenger cabin in accordance with Aerospace Technologies Group (ATG) Master Drawing List No. ATG- WS- 1104DL, Revision C, dated August 7, 2003, or later FAA approved revision. Installation of window shades in accordance with ATG Drawing No. ATG-IP-1104, Revision B, dated August 7, 2003, or later FAA approved revision.

Limitations and Conditions: This STC does not approve the electrical installation of the window shades in the aircraft. A FAA approval of the aircraft electrical installation is also required. This should include the aircraft wiring and routing data, electrical circuit protection, electrical load analysis, and testing of the window shade electrical aircraft installation to demonstrate freedom from EMI. Instructions for Continued Airworthiness, R.T. Aerospace Report No. ATG-WS-1104 ICA, Revision A, dated August 3, 2003, is a required part of this STC. The compatibility of this design change with other previously approved modifications must be determined by the installer. If the holder of this STC agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
